Continuing Professional Development for the Future

Ensure your continued career success in the Training & Adult Education (TAE) industry with IAL’s Continuing Professional Development (CPD) programmes.

Be equipped with the right skills to develop critical and emerging skills to meet the professional demands of tomorrow.

Visit www.ial.edu.sg/cpd today!
Develop Critical & Emerging Skills
with these 5 Key CPD Areas:

**BUSINESS INSIGHTS**
Keep your finger on the pulse of the TAE industry, so you are never caught off guard. Whether you are just beginning to embark on the entrepreneurial journey or looking for deeper understanding of your business, the right business insights prepare you to adapt to economic and regulatory changes.

www.ial.edu.sg/bi

**PEDAGOGICAL INNOVATION**
Evolve, grow and embrace innovations in pedagogy. Pedagogy - the art and science of teaching and how we learn - is always changing in response to our changing environment, culture and technology. Learn about newer, emerging methods that could help deliver lessons more effectively for today’s learners.

www.ial.edu.sg/pi

**PRODUCTIVITY & PERFORMANCE**
Accomplish more, quickly and painlessly. Discover new techniques to improve your own performance or improve productivity of your teams. Find out how to uncover bottlenecks and learn how to eliminate inefficiencies to optimise performance.

www.ial.edu.sg/pp

**WORKPLACE LEARNING**
Develop key competencies to plan and execute workplace learning at a higher, professional level. These programmes offer real-time, real-world training, conducted in actual or simulated workplaces, ensuring that the lessons learned are practical, authentic and more deeply ingrained.

**TECH ENABLED LEARNING**
Take your learning into the digital age, where tech-enabled learning builds on, and goes beyond, classroom interactions. Get comfortable with technology that complements learning support structures and learn how you can apply it to your own curriculum design, to allow your learners to learn at their own time, pace and environment.
