Professionalising Jobs & Deepening Skills

The Training and Adult Education (TAE) sector is a critical enabler that supports enterprises in their adoption of SkillsFuture to improve business performance through up-skilling and re-skilling of their employees, and ensures we stay relevant and competitive as a skilled workforce.
The Skills Framework is developed for the Singapore workforce to promote skills mastery and lifelong learning. It equips individuals to make informed decisions about career choices, as well as take responsibility for skills upgrading and career planning.
