

Research Associate Job Description

The successful applicant will be contributing to the **Developing Pedagogical Practices in the TAE sector project** for approximately 100 – 120 days over a two-year period, on a contract for service basis.

Main tasks:

1. Drive the research literature on ecosystems in the TAE sector, and change processes
2. Be responsible for data collection in one sector. The project draws on ethnographic approaches.
3. Be responsible for data analysis for their sector and contribute to analysis across sectors
4. Lead development of change processes for different groups of stakeholders
5. Prepare for and actively contribute to project team meetings

Requirements:

- Holds a PhD in the social sciences
- Has at least five years research experience
- Ability to work independently and as a member of a team
- Demonstrated experience in meeting required deadlines
